There is an old saying: “Moringa leaves prevent 300 diseases.” Now modern science is proving that these tiny leaves are packed with incredible nutrition that can strengthen our bodies and prevent many diseases.

Amazing, but true

Proteins, the building blocks of our bodies, are made of amino acids. Usually, only animal products such as meat, eggs and dairy contain all of the essential amino acids. Amazingly, Moringa leaves also contain them all.

2 times the Protein of Yogurt

Vitamin A acts as a shield against diseases of the eyes, skin and heart, diarrhea, and many other ailments. Carrots are very high in vitamin A, but Moringa leaves are even higher.

4 times the Vitamin A of Carrots

Vitamin C strengthens our immune system and fights infectious diseases including colds and flu. Citrus fruits such as oranges and lemons are full of vitamin C. Moringa leaves have even more.

7 times the Vitamin C of Oranges

Calcium builds strong bones and teeth, and helps prevent osteoporosis. Milk provides a lot of calcium, but Moringa leaves provide even more.

4 times the Calcium of Milk

Potassium is essential for the brain and nerves. Bananas are an excellent source of potassium. Moringa leaves are even better.

3 times the Potassium of Bananas

These figures reflect gram-for-gram comparisons with Moringa leaves.*

Incredible in any language...

Botanical name: Moringa oleifera

Popularly known as “drumstick tree” in English.

Easy to grow:
- From seeds or cuttings
- Even in marginal soils
- Very little care needed
- Very little water required
- Produce fruits & leaves within 8 months (Plant away from homes, as they tend to attract undesirable caterpillars.)

Easy to use:
- Add fresh or dried leaves to any dish
- Dry leaves (in shade) and store
- 8 to 24 g of leaf powder daily improves health

Be incredible!
- Plant a Moringa tree.
- Include Moringa leaf powder in your food.
- Share this information with people who can help make our world a healthier place.
